

## NSBRI-RFP-04-02

### NOTICE OF AMENDMENT

*This amendment is an addition to the original language in NSBRI-RFP-04-01 Soliciting Postdoctoral Fellowship Applications. The purpose of this amendment is to provide further clarification regarding funding and budgeting of NSBRI Postdoctoral Fellowships. Please refer to this amendment for all Postdoctoral Fellowship Applications to be electronically submitted by 5:00pm ET, June 30, 2004.*

The Postdoctoral Fellowship award will be funded as a stipend of \$40,000 for the first year with an increase in the second year. Additional funding will be awarded for health insurance and travel as outlined in the RFP. A budget is not necessary for completion of an application. After Postdoctoral Fellowships have been awarded, the NSBRI will work with the funded institutions to execute the awards, which will include development of a budget for funding.

Indirect costs will not be awarded to the funded institution. Additionally, the NSBRI's traditional cost sharing of 10% of the funded award is welcomed, but not required for institutions who receive awards for Postdoctoral Training.

For additional questions, please email [contact\\_us@www.nsbri.org](mailto:contact_us@www.nsbri.org).
